Address: 28 Lillooet Crescent Richmond Hill, ON L4C 5A7

## Objective

An opportunity to apply and enhance my knowledge in software engineering field.

## Education

### ➤ Honors Bachelor of Software Engineering

Lassonde School of Engineering, York University, Toronto, ON

**expected 2018**

gpa: 5.1/9

## Technical Skills:

### Operating systems:

- Microsoft windows, Mac OSX, Ubuntu, Chrome OS.

### Programming Languages:

- Java, C, MIPS Assembly, Verilog, Shell Script, SQL, HTML5, CSS3, PHP, JavaScript, and Eiffel.

### Software/Framework:

- Relational Database Management Systems such as, DB2. Eclipse IDE, Wordpress, bootstrap, Eiffel Studio, BMC Remedy, IBM notes, and GoToAssist.

## Related projects

### Java Application Development

- LE/EECS 2311, Software Development Project, Project Grade: B, Winter 2015.
  - o Developed a Guitar tablature to reformat guitar notes written in ASCII to a pdf with guitar bars.
  - o Used Eclipse IDE, iText library, and various Java libraries for parsing the input text.
  - o Performed unit testing as the project developed over the time for application functionalities with different inputs.
  - o  <https://github.com/bsebt/GuitarTablature>
- Pro Auto Body Inc , Custom application
  - o Developed a java program to translate amount of money from number to English representation.
  - o Used Java language to pars and convert numbers into dollar and cents amount written in English
  - o used Java swing library to create the simplest interface for client daily usage.
  - o  <https://github.com/bsebt/NumbersToLetters>

## Freelance Work

- **Web administrator/ IT support**  
**Bahman Accounting, Toronto, ON** **2013-Present**  
**Pro Auto Body Inc. Toronto, ON** **2015-Present**
  - Design and update website using WordPress Content Management System.
  - Implemented different client requests such as online booking systems and file sharing system in a private network.
  - Manage and maintain workstations in yearly basis due to upgrades.
  - Analyzing, marketing, and online advertisement for Pro Auto Body.

## Related Experience

- **IT Helpdesk Technician (CO-OP)**  
**Osgoode Hall Law School, Toronto, ON** **2015-2016**
  - Management decided to offer me a part time contract for 8-months after 4-months summer coop was finished.
  - Dealt with BMC Remedy ticketing system to manage and document incidents.
  - Shared a calendar with team members to schedule projects with deadlines, and build work stations using Microsoft SCCM and deploy for faculty, and staff.
  - Provided IT support in person, via telephone, and remotely (via GoToAssist software) from the helpdesk for faculty, staff, and students.
  - Used and troubleshoot IBM Notes software to manage my work email, helpdesk email and calendar as well as communicate with my team members. Also used IBM Notes applications like Address books, ID vault.
- **Student computing service advisor**  
**York University, Toronto, ON** **2014-2015**
  - Helped students with their university account problems.
  - Reported any malfunctioning services or machines to supervisors.
  - Set up VPN for faculty and staff members to help them accomplish work remotely off campus.

## Extracurricular Involvement:

### **Lassonde Student Government**

- **Treasurer**
  - Handled over \$5000 of budget for the student government.
  - Prepared yearly budget reports for Lassonde School of Engineering.
- **Event Planner**
  - Successfully led members of the social events team to create and run multiple events with hundreds of attendees.
